

AARYAN

NAMPOOTHIRI

Student

CAREER SUMMARY

I am a cybersecurity enthusiast currently pursuing Int M.Tech CSE (Cybersecurity) at VIT Bhopal, Madhya Pradesh. My interests expand to coding and cybersecurity. My strong points in coding include logical reasoning, spontaneous thinking, and expertise in programming languages like Java, Python, C++, HTML, CSS & Next.js. My non-technical skills include proficient public speaking and team co-ordination.

EXPERIENCE

Web Development Intern

Feb 2026 - Present

Sindra Technologies Ltd.

- Developed "**Aetheris**", a standalone full-stack smart workspace using Next.js, React, and Tailwind CSS to build a fluid and responsive user interface.
- Led the backend development for "**CollabCanvas**", a collaborative graphic design tool, where I designed the database structure, authentication procedure and handled various APIs.
- Managed version control and deployment, ensuring smooth team collaboration and a reliable final live product.

Chair, Operations

May 2026 - Present

IEEE Madhya Pradesh & Chhattisgarh SAC

- Managed IEEE events as a Student Partner at campus level
- Presently co-ordinating upcoming IEEE Congress for MP SAC

PROJECTS

Omnicure

A robust IoT Security framework built for the safe and secure transfer of medical data. It leverages Elliptic Curve Cryptography (ECC) and Bilinear Pairing to enforce mutual authentication and data integrity, especially critical during remote healthcare scenarios like pandemics.

Ghostbit

An advanced image steganography tool designed for undetectable data concealment. Utilizing a high-entropy algorithm, GhostBit allows users to encode and decode secret messages within images with zero visual degradation.

RESEARCH

A Novel framework for IoT security

A highly secure framework design which can be used to transfer confidential medical data across devices preventing any data breach.

EDUCATION

Int M.Tech CSE (with Cybersecurity)

Vellore Institute of Technology

2024 - Present

Higher Secondary Education (ISC)

Infant Jesus ISC School

2022-2024

SKILLS

Technical Skills

- Java
- Python
- C++
- Next.js
- HTML & CSS
- Typescript
- Github.co
- Canva

Non - Technical Skills

- Time Management
- Leadership
- Collaborative team work
- Effective problem solving
- Communication

CERTIFICATIONS

- Blockchain and its Applications by NPTEL
- Introduction to Cybersecurity by Cisco Networking Academy
